### INSTRUCTOR-LED TRAINING

Our expert trainers provide cost-effective language training across the globe. We use a combination of on-site instructors and a blended-learning model to overcome the barriers of Covid-19.

### DIGITAL COURSES

We have a range of e-learning courses designed specifically for oil and gas, focusing on the essential language needed by operators and technicians.

### ASSESSMENTS AND BENCHMARKING

We offer a suite of in-house tests, including fully online models, for all requirements from large-scale placement testing to benchmarking and recruitment.
